Click onto your class.

It should then bring you to a page like this. This is where your child can access all the online learning. If you scroll through the page you will be able to find websites for activities, literacy, maths, science and reading tasks.

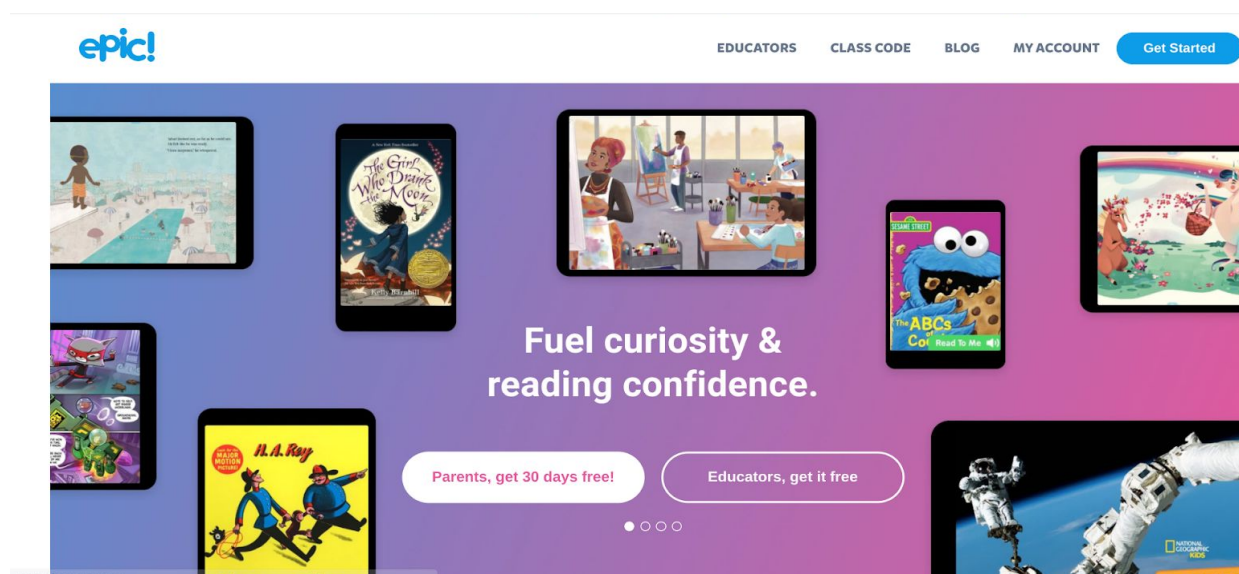

The stream will be updated by the class teacher about important messages you need to know, so it is always good to keep an eye out!

The 'stream' is where you will be able to find the work set by your teacher. All you then need to do is click on the document, start typing and then press 'turn it in' when you have finished. You are able to leave comments for your teacher if you are finding things difficult.

Alternatively, if your device has a webcam then you can use your child's 'Wonde' badge to access Google Classroom. This is a black and white square symbol (QR Code) that is assigned to your child's account. The children may know these as their 'Magic Badges'. After logging into your computer, go to the website <https://edu.wonde.com/magic> and then hold up the Wonde (Magic Badge) to the webcam and this will log them into their Google Classroom account.

How to access getepic.com

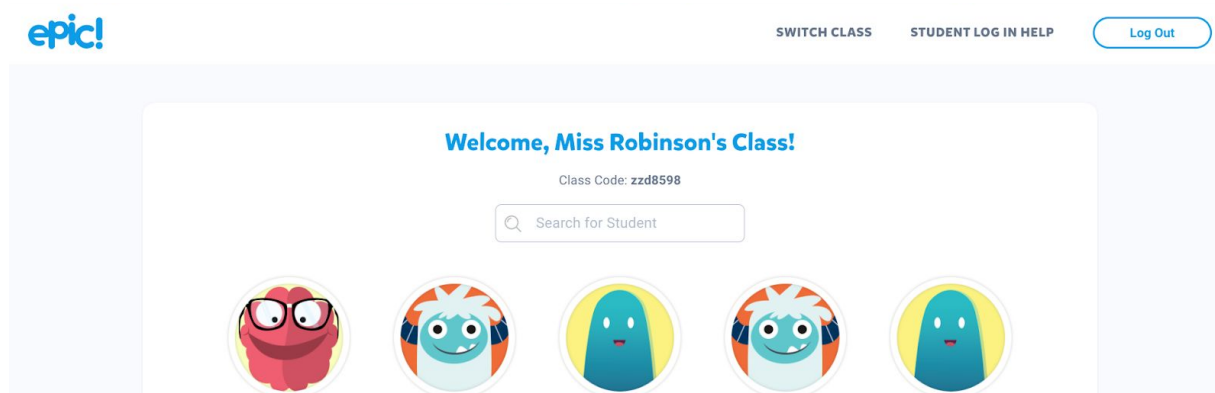

You will need to log onto getepic.com. Then click 'class code'.

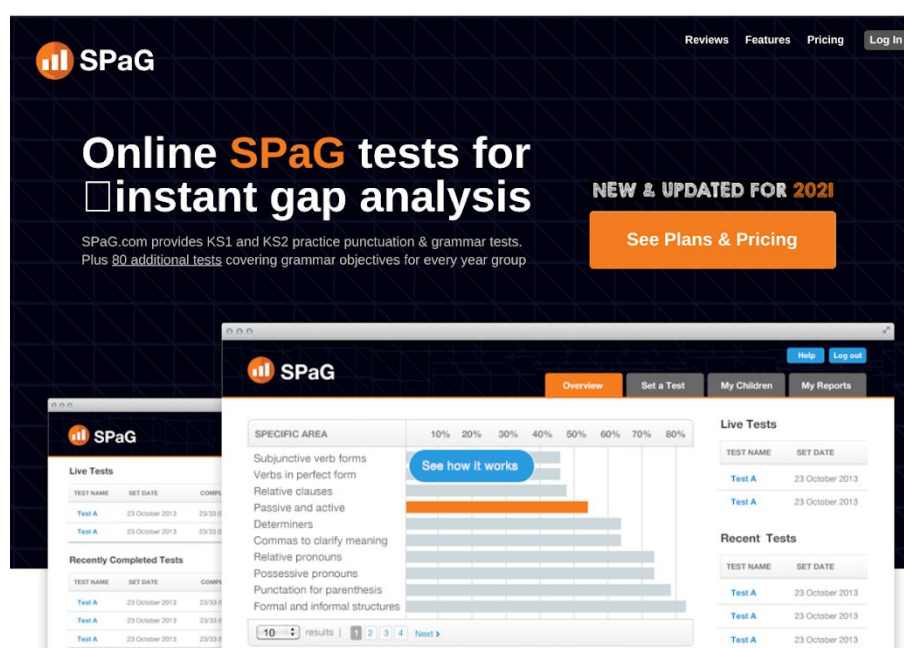

It will then bring you to a page like this. You will then need to type in the class code *****. This can be found in their reading records.

The image shows the "Enter Your Class Code" page. At the top, there's a navigation bar with links for EDUCATORS, CLASS CODE, BLOG, MY ACCOUNT, and a Get Started button. The main heading is "Enter Your Class Code". Below this, there's a text input field containing "abc1234". Underneath the input field is a blue "Go!" button. Below the button is an illustration of three cartoon characters: a green one with a crown, a red one with a crown, and a blue one with a crown. Below the illustration, there's a link that says "Don't know your class code? Ask your teacher or a technology assistant for help."

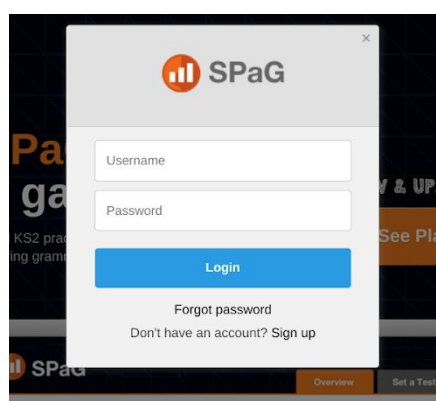

After this, you will then need to scroll down and find your child's name.

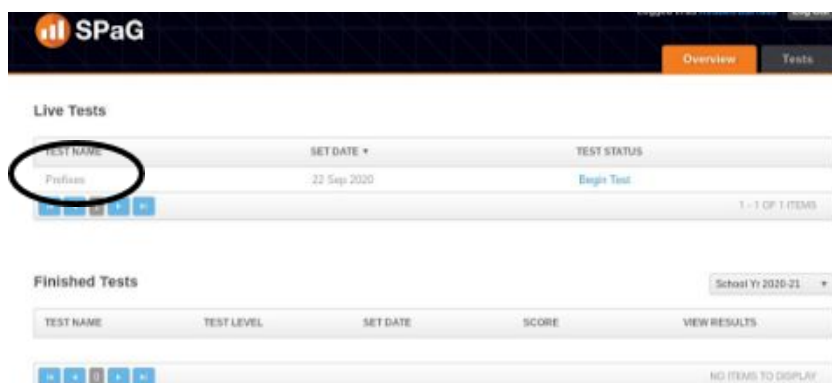

How to gain access to spag.com

You will need to type in 'spag.com' into your address bar. After this you will need to click log in.

Type in your child's username and password. This can be found on the front on their reading records.

You will then see a page which will have the tests set for your child by their class teacher.
